## DISCLAIMER

### POSSIBLE FUTURE RULES and/or RATE CHANGES AFFECTING YOUR PHOTOVOLTAIC (PV) SYSTEM

The following is a supplement to the Grid-Tied Non-Residential Solar Electric PV Application you signed with UNS Electric, Inc. (UNSE).

1. Your PV system is subject to the current rates, rules and regulations established by the Arizona Corporation Commission (Commission). The Commission may alter its rules and regulations and/or change rates in the future. If this occurs, your PV system is subject to those changes and you will be responsible for paying any future increases to electricity rates, charges or service fees from UNSE.
2. UNSE's electricity rates, charges and service fees are determined by the Commission and are subject to change based upon the decision of the Commission. These future adjustments may positively or negatively impact any potential savings or the value of your PV system.
3. Any future electricity rate projections which may be presented to you are not produced, analyzed or approved by UNSE or the Commission. They are based on projections formulated by external third parties not affiliated with UNSE or the Commission.

Initials \_\_\_\_\_

**In its pending rate case that was filed on May 5,2015, UNSE has asked the Commission for approval to change the retail customer credit for excess energy placed on the grid and to eliminate the monthly energy carryover (banked credits). These changes, if approved by the Commission, may affect your bill. Other parties participating in the rate case may recommend different proposals that may affect your bill in other ways. The Commission is not bound by any party's proposal and may accept, reject, or modify any proposed rate, charge or term of service.**

## System Qualifications, Electric Service Requirements and Interconnection Requirements

The installed PV system must at all times meet the system qualification requirements for commercial and grid-connected PV systems as set forth in the current “Electric Service Requirements”, “Distributed Generation Interconnection Requirements” (DGIRs), and UNSE’s “Rules and Regulations”, as amended from time to time, the terms of which are fully incorporated herein by reference (PV systems are defined as “Generating Facility” in the DGIRs). Complete copies of the “Electric Service Requirements” and “Distributed Generation Interconnection Requirements” conformed to ACC Docket No. E-00000A-99-0431 are located at <https://www.uesaz.com/customer/construction/electric> under the “Customer Care” - “Construction Services” tab. UNSE’s “Rules and Regulations” dated July 1, 2013 are located at <https://www.uesaz.com/customer/rates/electric> under the “Rules and Regulations” tab. Customer acknowledges that it has adequate notice of and access to these online documents, has read the documentation, and waives any objection thereto. Hard copies will be provided upon request.
